# MIDWAY BED

New model from FRANKOF – Midway bed. The design is guided by a modern concept of elegant restraint.

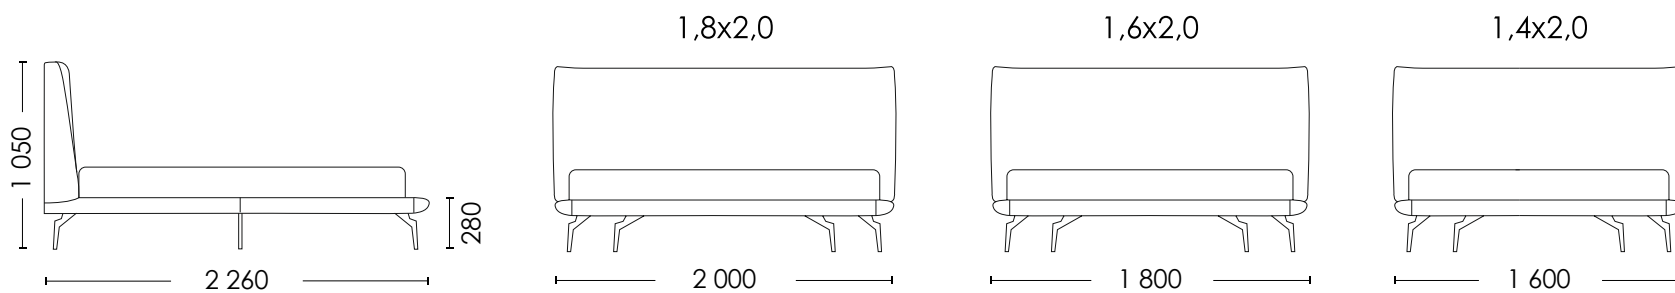

The headboard features a rectangular shape, **widening toward the bottom, with decorative stitching along the edges.**

Its surface is **upholstered in fabric, creating subtle decorative folds.**

## SCHEME

**FRANKOF**

The bed frame is made of 80% plywood, **a material that withstands active use over a long period without losing its original properties.**

The construction also includes softwood beams, HDF-MDF, and E1 particleboard. **The softness of the headboard and side rails** is achieved with high-density polyurethane foam.

# MIDWAY BED

The bed base is **minimalistic**, keeping the **bedroom space uncluttered**. **Slim, rounded side rails are complemented by tall metal legs** (200 mm). This combination creates a sense of visual lightness, emphasizing the refined silhouette of the Midway bed. Additionally, the legs allow for easy cleaning under the bed with a robotic vacuum.

For enhanced sleeping ergonomics, the base includes beech slats. **They provide orthopedic support and evenly distribute weight.**

200

FRANKOF

Thanks to its simple form, the Midway bed perfectly complements modern interiors in neo-classical, minimalist, or Scandinavian styles.
